

RIIMPO206D

Conduct bulk water truck operations

COURSE DESCRIPTION

This unit covers bulk water truck operations which includes planning and preparing for operations, operating the excavator, and carrying out post-operational procedures.

PERSONS WHO WOULD BENEFIT FROM THIS COURSE

This unit is appropriate for those whom are required to operate as a bulk water truck operator as a part of their job description at worksites within:

- Coal mining
- Extractive industries
- Metalliferous mining

COURSE PREREQUISITE

- Student must be over 18 years of age
- Student must be able to read and write in English as prescribed by regulation
- The student must have sound written and mathematical skills

COURSE ELEMENTS

At the end of this course the successful student will be able to:

- identifying equipment processes, technical capability and limitations
- identifying, interpreting and using geological and technical data (basic)
- using mine operational systems
- being prepared for fire/accident/emergency
- identifying signs of operator fatigue and how it should be managed
- applying chemical and fuel safety measures
- applying operational, maintenance and basic diagnostics
- completing housekeeping activities

COURSE STRUCTURE

Formal Training is completed.

Written knowledge test and calculation assignment can be completed at the end of the formal training, prior to working with a ticketed supervisor to complete their logbook hours.

After the logbook hours are completed, the student can request a practical final assessment.

Written test not completed:

Where a student has not completed a written test prior to completing their logbook hours, the student can apply to be assessed for all assessments, but must have successfully completed a written knowledge test and calculation assignment, before completing the final practical test.
