

RIIMPO304D Conduct Wheel Loader Operations

COURSE DESCRIPTION

The aim of this course is to provide the student with the underpinning skills and knowledge to successfully prepare and operate a wheel loader to meet minimum training and assessment standards for the purpose of certification.

PERSONS WHO WOULD BENEFIT FROM THIS COURSE

This unit is appropriate for those working in mobile plant operator roles and whom are required to operate a wheel loader as a part of their job description at worksites within:

- Coal mining
- Extractive industries
- Metalliferous mining

COURSE PREREQUISITE

- Student must be over 18 years of age
- Student must be able to read and write in English as prescribed by regulation
- The student must have sound written and mathematical skills

COURSE ELEMENTS

At the end of this course the successful student will be able to:

- Plan work for the prevailing working conditions
- Use the controls and operating systems to manage the operation of the equipment
- Locate the load and identify the load characteristics
- Safely move the load
- Monitor the controls and stop equipment
- Shut down and secure the equipment after the completion of operations

COURSE STRUCTURE

Formal Training is completed.

Written knowledge test and calculation assignment can be completed at the end of the formal training, prior to working with a ticketed supervisor to complete their logbook hours.

After the logbook hours are completed, the student can request a practical final assessment.

Written test not completed:

Where a student has not completed a written test prior to completing their logbook hours, the student can apply to be assessed for all assessments, but must have successfully completed a written knowledge test and calculation assignment, before completing the final practical test.
