

MSAPMWHS216

Operate breathing apparatus

PERSONS WHO WOULD BENEFIT FROM THIS COURSE

This competency applies to students who are required to wear breathing apparatus for part of their job, because they are working in a confined space, with hazardous gases/vapors in an anoxic atmosphere or for other applications requiring the wearing of breathing apparatus. They may also be required to wear it in emergency situations, however this is not the prime focus of this unit, and so makes this unit different from PUAFIR207A Operate breathing apparatus open circuit, as it has no prerequisite and is much broader in its application.

COURSE DESCRIPTION

Provide students with the ability for competence associated with the operation and maintenance of breathing apparatus equipment in an irrespirable atmosphere.

ASSESSMENT

Group activities
Knowledge assessment
Practical assessment

DELIVERY

Face to face.

COURSE DURATION

7 hours.
