

RIIMPO301E

Conduct Hydraulic Excavator Operations

COURSE DESCRIPTION

This unit covers conducting hydraulic excavator operations in mining and extractive industries. It includes: planning and preparing for operations, operating the excavator, and carrying out post-operational procedures.

PERSONS WHO WOULD BENEFIT FROM THIS COURSE

This unit is appropriate for those working in mobile plant operator roles and whom are required to operate a hydraulic excavator as a part of their job description at worksites within:

- Coal mining
- Extractive industries
- Metalliferous mining

COURSE PREREQUISITE

- Student must be over 18 years of age
- Student must be able to read and write in English as prescribed by regulation
- The student must have sound written and mathematical skills

COURSE ELEMENTS

At the end of this course the successful student will be able to:

- Plan and prepare for operations
- Operate hydraulic excavator
- Carry out post-operational procedures

COURSE STRUCTURE

Formal Training is completed.

Written knowledge test and calculation assignment can be completed at the end of the formal training, prior to working with a ticketed supervisor to complete their logbook hours.

After the logbook hours are completed, the student can request a practical final assessment.

Written test not completed:

Where a student has not completed a written test prior to completing their logbook hours, the student can apply to be assessed for all assessments but must have successfully completed a written knowledge test and calculation assignment, before completing the final practical test.
